

R15™ Provides Oxygen for 15 Minutes at 6L/min.

Emergency oxygen when you need it.™

Patented Breakthrough Technology

- Provides 15 minutes of humidified oxygen at 6 lpm for cardiac and airway emergencies while waiting for EMS arrival
- Easy to use, no training or maintenance required
- Does not require a prescription
- Requires no electric or battery power
- Unlike oxygen cylinders, R15 is non-explosive and does not require specialized storage

The R15 can be stored safely and easily accessible in all public areas

Easy to use - activates with just 3 simple steps

Specifications	
Flow	≥ 6 L/min
Flow Duration	≥ 15 minutes
Oxygen Volume (Minimum)	> 90 L
% Oxygen	≥ 99%
RH, Temperature	Humidified <98.6°F (37°C)
Storage Temperature Range	40°-104°F (4.4°C-40°C)
Operating Temperature Range	68°-75°F (20°-23.9°C)
Shipping Temperature Range	Not to exceed peaks above 120°F (48.8°C) or below 10°F (-12.2°C)
Shelf Life	2 years (from date of manufacture)
Weight	16 lbs (7.3Kg)
Dimensions	8" x 14" x 16" (20.32 x 35.56 x 40.64 cm)
User Interface	One Lever Operation, No Training Required
Use	Single Use - Disposable
